Professional Summary

Currently pursuing a B.Tech degree in Information Technology, proficient in Python, Java, and foundational programming concepts including Data Structures, Algorithms, and Object-Oriented Programming. Passionate about developing scalable and innovative software solutions while actively seeking collaborative opportunities in dynamic teams. Aspiring to secure a Software Engineering Internship at Microsoft to enhance practical experience and contribute to impactful projects.

Education

Bachelor of Technology in Information Technology

Expected 2027

Vardhaman College of Engineering, JNTUH, Hyderabad

Key coursework includes Data Structures and Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, and Software Engineering.

Technical Skills

- **Programming Languages:** Python, Java, C
- **Web Technologies:** HTML, CSS, JavaScript, React, Node.js
- **Frameworks & Tools:** MERN Stack, Requests, BeautifulSoup, Selenium, Pandas, Git
- **Databases:** SQL
- **Core Concepts:** Data Structures, Algorithms, Object-Oriented Programming, Multithreading, Networking
- **Other:** Familiar with REST APIs, Agile/Scrum methodologies, and GitHub project management

Achievements and Competitions

- Solved over 100 problems on competitive programming platforms such as LeetCode and CodeChef.
- Earned the NPTEL Programming in Java certification with a Silver grade (63%).
- Completed an AI certification at the college level.
- Participated in hackathons and coding contests demonstrating teamwork and swift problem-solving skills.
- Co-inventor of a patented automated flood control device for water canals.

Internship Experience

Cloud Computing Intern, Woriso1stop.ai

Jul 2025 – Sep 2025

- Developed and deployed applications using Azure VM and AWS serverless technologies.
- Created secure user authentication systems with AWS Cognito.
- Gained hands-on experience with cloud hosting, serverless architectures, and related tools.

Projects

Serverless Personal To-Do List Application

Jul 2025 – Aug 2025

- Designed a user login system employing AWS Cognito coupled with LAMP Stack backend.
